MONISHKA YADAV

B.Tech CSE (AI & ML) Student · Software Development · AI/ML · Product Building

Delhi NCR, India · +91 85109 54334 · monishka310307@gmail.com
Portfolio · GitHub · LinkedIn · LeetCode

Second-year Computer Science (AI & ML) undergraduate who enjoys turning ideas into working software. Has built four projects spanning AI-assisted platforms, computer vision, and productivity tools; competed in Smart India Hackathon and Adobe hackathons; and solved 100+ problems on LeetCode. Seeking software development or AI/ML internship opportunities.

Education

B.Tech in Computer Science & Engineering (AI & ML) – Dronacharya College of Engineering 2025 — 2029

Relevant coursework: Data Structures, DBMS, Python Programming, Artificial Intelligence, Discrete Maths

Technical Skills

Languages — Python, JavaScript, C, SQL

Web Development — HTML, CSS, React, Next.js, Streamlit

AI / ML — Machine Learning Fundamentals, Computer Vision, scikit-learn, PyTorch

Tools & Platforms — Git, GitHub, VS Code, Supabase, Figma, Claude Code

Core CS — Data Structures & Algorithms, Object-Oriented Programming, DBMS

Projects

KarMic — AI-Assisted Women's Rights & Support Platform Hackathon · GitHub

- Co-designed an AI-assisted platform that makes rights-related guidance and support more accessible to women.
- Shaped solution design and feature planning; built and delivered the pitch, explaining trust boundaries and responsible-AI safeguards.

PashuDrishti — AI-Powered Livestock Breed Identification SIH 2026 Internal · GitHub

- Developed with Team Adamya (Problem Statement SIH25005) an image-based solution to help farmers identify cattle and buffalo breeds.
- Explored a two-stage computer-vision workflow (category detection, then breed classification) with a web interface for predictions.

Skill Gap Analyzer — Python, Streamlit GitHub

- Built a Streamlit web app that helps users compare current skills against target areas and pinpoint where to focus learning.

PacePlanner — HTML, CSS, JavaScript GitHub

- Built and deployed (GitHub Pages) a study planner that tracks estimated vs. actual study time and generates reflection insights.

Hackathons & Achievements

Smart India Hackathon 2026 — Internal Round, Team Adamya; built and presented PashuDrishti

Adobe University Hackathon 2026 — Participant, Round 1 · **Dronathon 2025** — Ideathon presenter

GirlScript Summer of Code — Open-source contributor · **LeetCode** — 103 problems solved

Certifications

Data Science & ML — Python for Data Science, Python 101 for Data Science, Supervised Learning Methods

Anthropic — Claude 101, Claude Code 101, Claude Platform 101, Introduction to Claude Cowork

IBM SkillsBuild

Core Competencies

Problem-solving — product thinking from user need to deployed feature · **Communication** — pitching technical ideas at hackathons · **Teamwork** — collaborating under tight deadlines

Declaration

I hereby declare that the information furnished above is true and correct to the best of my knowledge and belief.
